These sentences explain the photos on your table. Cut the sentences out and match them to the right photos.

This is the village of Taysa in Somaliland. The houses here are built with wooden frames in a bubble shape. People cover this frame with old clothes or with whatever material is available at the time.

Two women collect water from a berkhad. Berkhads are big buildings which communities use to collect and store rainwater. ActionAid helps people to look after these buildings as they are an important source of water.

This man is walking his camels across the road. A lot of people in east Africa rely on their animals for food and money. Many have been forced to leave their homes to find water for their families and animals.

Earth dams are piles of mud built in a circle. When rain falls, the water is collected inside of these dams. Stored in this way, water evaporates more slowly so that there is some left if there is a drought.

This dry and dusty land used to be a river. However the river dried up during the drought.

The food which ActionAid provides to communities arrives on the back of big trucks.

This ActionAid worker is counting the bags of food which will go to families who need it. ActionAid has given food to over 1,000 families since the drought began.

This well was built to help the local community get fresh water from under the ground. ActionAid has helped local people build over 150 wells and water pumps in Somaliland since 2013.

Daeka sits inside her family's home and stirs a pot of food. She still goes to school but often misses meals because of the drought.

Niama's village now has a well built by ActionAid. This means she can grow vegetables like onions, cabbages, carrots, tomatoes and lettuce.
